## Moving Classrooms @ Little Miracles

Moving Classroom Method is a huge success & works very effectively. In this teaching technique, the Educator is assigned one Centre. in which she is stationed in a prepared environment, while the students move around from one Centre to another. This method helps students to transition smoothly & get into a right mindset when shifting from one classroom to another. The prepared environment helps determine their learning style & Educators get to work with every child.

## Quote of the Month

**"The Earth is what we all have in common".**

Wendell Berry (an American novelist, environmental activist)
